

Biography

I'm not taking corporate money and running to end private control of our election systems, to institute open source software, and to require 100% paper audits. I'll increase candidate financial disclosure, fight voter suppression, and work to secure our voter registration rolls. I will lead a nationwide solution by decertifying voting machines vulnerable to hacking. _

I grew up very poor, but worked hard to become a paramedic and business owner, and earned a law degree and BA & MA in History, obtained training in Counterterrorism, and am a FEMA Certified Incident Commander. These are important characteristics for all aspects of the Secretary of State office.

As the state's head vote counter, I will not endorse other politicians or candidates. As the state's administrator in charge of business filings, I'll work hard to ensure business growth and development in California, especially small business, which is the workhorse of American Democracy. As the keeper of State Archives, I'll do everything possible to make California a center for historical research and scholarship. I'll bring true integrity to the office. www.rubenmajor.com

EDUCATION/BACKGROUND

- Law Degree (Understands Due Process Issues & Administrative Law Execution)
- Master's in Military History & Bachelor's Degree in History (Helps w/State Archives & Research)
- Small Business Owner (Experience Managing Large Teams & Small Business Issues)
